## Reading of Tables

On all tables, the schedule of each individual train is shown in a separate column. Each train has an operating number which appears at the top of the schedule column.

Train times from 12:01 a.m. (Midnight) to 12:00 Noon inclusive, are printed in light-faced figures; 12:01 p.m. (Noon) to 12:00 Midnight are printed in dark-face throughout the timetable.

Trains make regular stops only at stations where time figures appear in column opposite the station name. Symbols are opposite some schedule figures. They are important. They indicate exceptions and should be checked carefully with the explanation under Reference Notes at the bottom of each page.

When trains are shown as Stopping Conditionally at a Station, passengers should advise Station Agent, in advance, of their intention to board train or notify Conductor of intention to leave train, as case may be.

On main line Table 4, where a station name is indented, that station is located on a Branch Line or connecting service.

The equipment of principal trains is shown on pages 9, 10, 23 and 24. Coach equipment is carried on all trains.

Any Erie Ticket Agent or representative will be glad to assist you with information and reservations.

Baggage to be checked should be delivered at stations reasonably in advance of train departure. The railroad cannot guarantee to forward baggage on same train with passenger and when necessary will be forwarded on other trains.
