Presenting The Midlander

**A new fast train
between
NEW YORK AND CHICAGO
to start**

**Westward from New York Friday June 2
Eastward from Chicago Saturday June 3**

We are happy to announce that beginning Friday, June 2, from New York and Saturday, June 3, from Chicago a new fast train, to be known as The Midlander, will be placed in service daily between New York and Chicago, stopping at principal intermediate points.

The westbound Midlander

Departs Jersey City Station at.....8:00 P.M. E.S.T.
Arrives Chicago, Dearborn Station, at.....5:20 P.M. C.S.T.

The eastbound Midlander

Departs Chicago, Dearborn Station, at.....9:05 A.M. C.S.T.
Arrives Jersey City Station next morning at.....7:40 A.M. E.S.T.

(For detailed schedule, see tables 1, 2, 3, 4 and 5 herein.)

The equipment will consist of Coaches, Pullman Drawing Room, Compartment and Section Sleeping Cars, Dining and Lounge Cars—all fully air-conditioned and first class in every respect. Excellent restaurant service will be provided for all meals at moderate charges.

The Midlander, with its companion train, the Erie Limited, will thus provide double daily service between New York and Chicago—morning and evening departures and arrivals at both terminals.

These great trains traverse the Heart of Industrial America as well as a magnificent scenic setting—take advantage of their air-conditioned, care-free comfort in your contemplated visit to either the New York World's Fair or the Golden Gate Exposition at San Francisco, or both.

Leave your cars at home and avoid highway and city congestion, especially in New York City, and travel the comfortable care-free way—by train.

Erie Ticket Agents will be glad to tell you about the exceptionally attractive fares and all-expense tours available and give you illustrated folders and booklets, or full information may be had by addressing a post card to any of the representatives shown on pages 37-38 or to the Passenger Traffic Department, Erie Railroad, Cleveland, Ohio.

Coaches are uncrowded, air-conditioned

Pullmans are comfortable day and night

WE KNEW THE TRYLON WHEN IT WAS ONLY A WAYBILL NUMBER

● Seven hundred feet in the air the Trylon at the New York World's Fair scratches the sky. Together with the Perisphere it has become the trade mark of the Fair.

But only yesterday it was 1,830,000 pounds of steel rolling from mill to New York. Rolling swiftly, safely through those high, wide clearances that have made the Erie famous as America's "Heavy Duty Railroad." Beacon tower of the biggest show on earth... just another load on the Erie.

Trust Erie with your Trylon (if you ever have one). But in the meantime, remember: whatever its weight, its size, its money-value, your shipment will be delivered swiftly, safely, economically over the road that's "First in Freight."

RAILROADS AT THE WORLD'S FAIR

The World's Fair Railroad Exhibit, sponsored by 27 Eastern railroads, will have three outstanding features: RAILROADS ON PARADE, RAILROADS AT WORK, and RAILROADS IN BUILDING.

There will also be track exhibits of foreign and American trains and equipment. The railroad building itself is the largest on the Fair site.

RAILROADS ON PARADE is a stage presentation of the story of transport development in America. It will be presented in a great outdoor theatre, with a seating capacity of 4,000, on a stage designed to accommodate two standard-gauge railway tracks, highways for traffic, a cast of 200, and a channel for the passage of early watercraft.

RAILROADS AT WORK will be housed in a theatre within the building. On a huge scenic diorama, 160 feet wide and 40 feet deep—designed to embody the topographical features of eastern states—with 500 model locomotives and cars, operating on 3,800 feet of miniature track, spectators will see the operation in detail of a complete railway system.

RAILROADS IN BUILDING will picture in detail the construction of railroads and building of equipment, from forest clearing for a right-of-way to the completed railway system. The interior of the "mountain" will house the varied exhibits of the supply industry.

A special thriller among the track exhibits will be a super 526-ton locomotive, the largest of its type ever built—which will operate under its own power on a roller bed.
