Elmira N.Y.

April 22, 1892

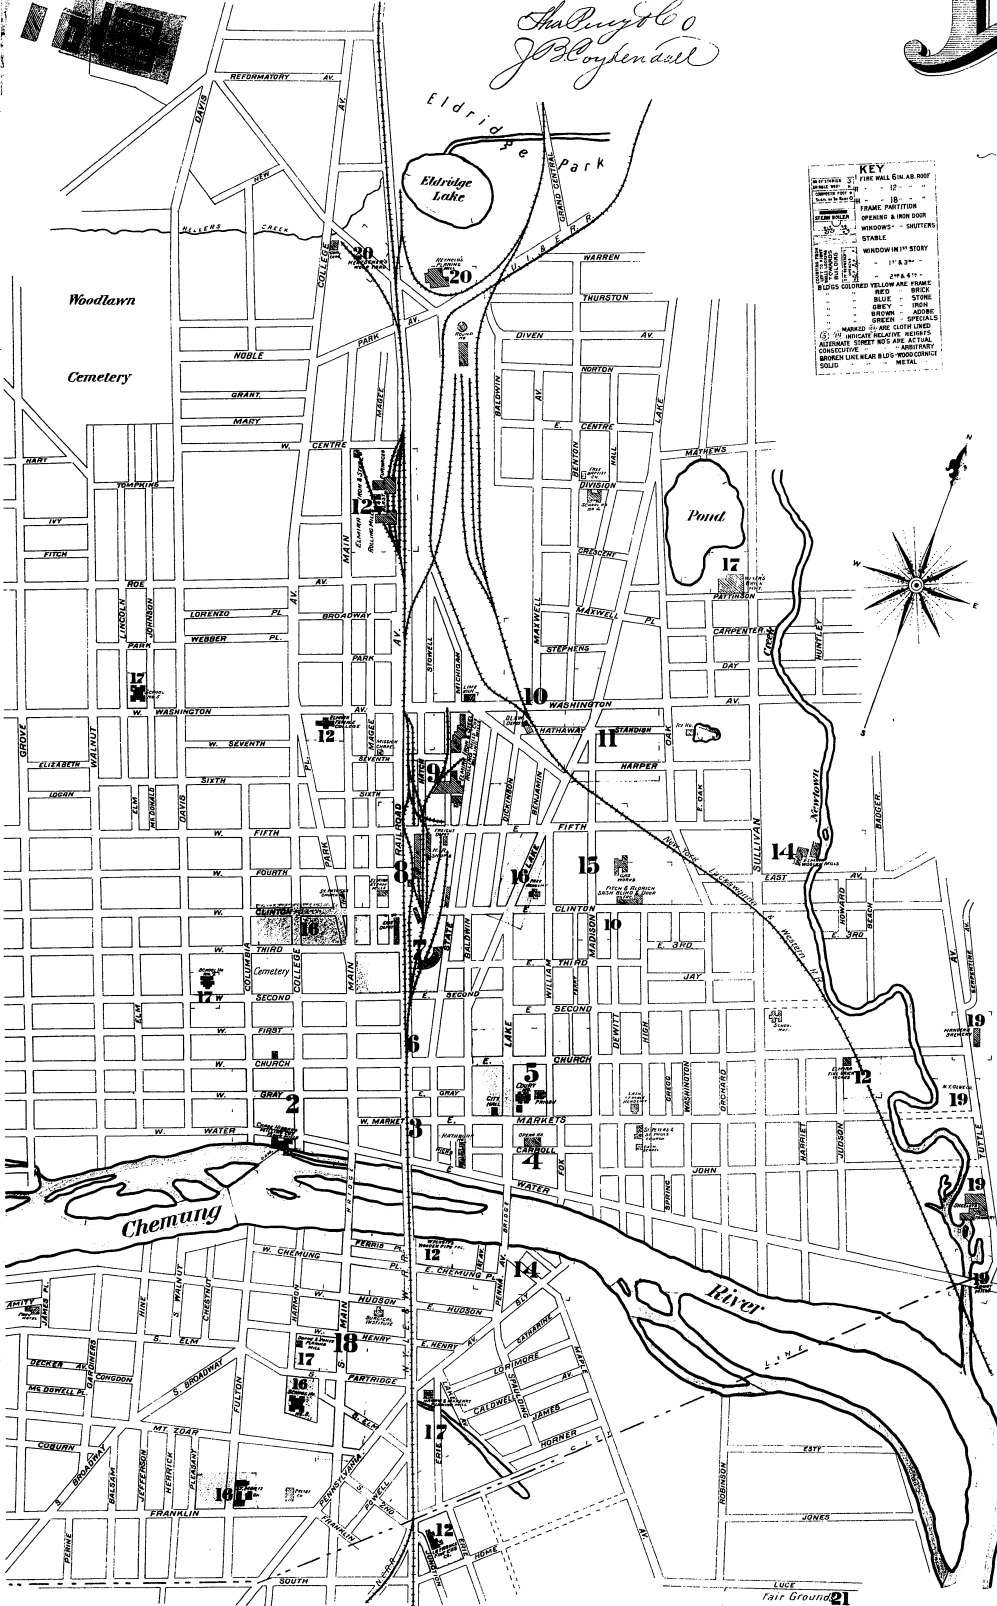

We have carefully examined the new Insurance Map of Elmira N.Y. made by the Sanborn-Perris Map Co. Town of New York, and find it quite accurate and correct, a big improvement over all former maps. It includes all the business blocks, a large area of the dwelling section and all property within 3 miles. We strongly recommend it to all insurance companies doing business in Elmira.
