

More Equipment for Super-Service!

MORE of these land Leviathans are being delivered to the Erie Railroad this month to make an already marvelous fast freight service more perfect.

Whether you do business in the great industrial belt between the Great Lakes and the Atlantic Seaboard, or in the adjacent territory reached through its immediate connections, Erie Service will speed your turnover, help reduce your inventories, hold your present markets and help you build new ones.

Let the nearest Erie Traffic man show you what Erie Service is doing for others.
