

One Section of the vast manufacturing territory served by Erie

Plant Sites Available

• Between Chicago and New York the Erie Railroad carves a path through the greatest manufacturing area in the world. Here choice plant sites are available. We will help answer your questions on *transportation, labor supply, power, accessibility to raw materials, housing, etc.*, so that you may find the location best suited to your needs. Just write.

George F. Weston, Industrial Commissioner
Erie Railroad Company
Cleveland, Ohio
