

GEARED TO MODERN MONEY SAVING REQUIREMENTS

NATIONAL TYPE B SPRING-PLANKLESS TRUCKS

NATIONAL Type B Spring-Plankless Trucks meet with the requirements of modern freight car truck design, giving greater flexibility and dependability.

Over six years ago National pioneered in introducing the modern spring-plankless truck, a design that allows quick wheel changes to be made and prevents loss of springs.

By equipping your cars with National Type B Spring-Plankless Trucks the net results are lower maintenance costs which go a long way in alleviating the constant need for reduced expenditure on this class of rolling stock.
