Why the middle-sized town pays off for industry

One key to improved production is better working and living conditions. This has led many industries to select plant sites in middle-sized towns with their good life for all concerned.

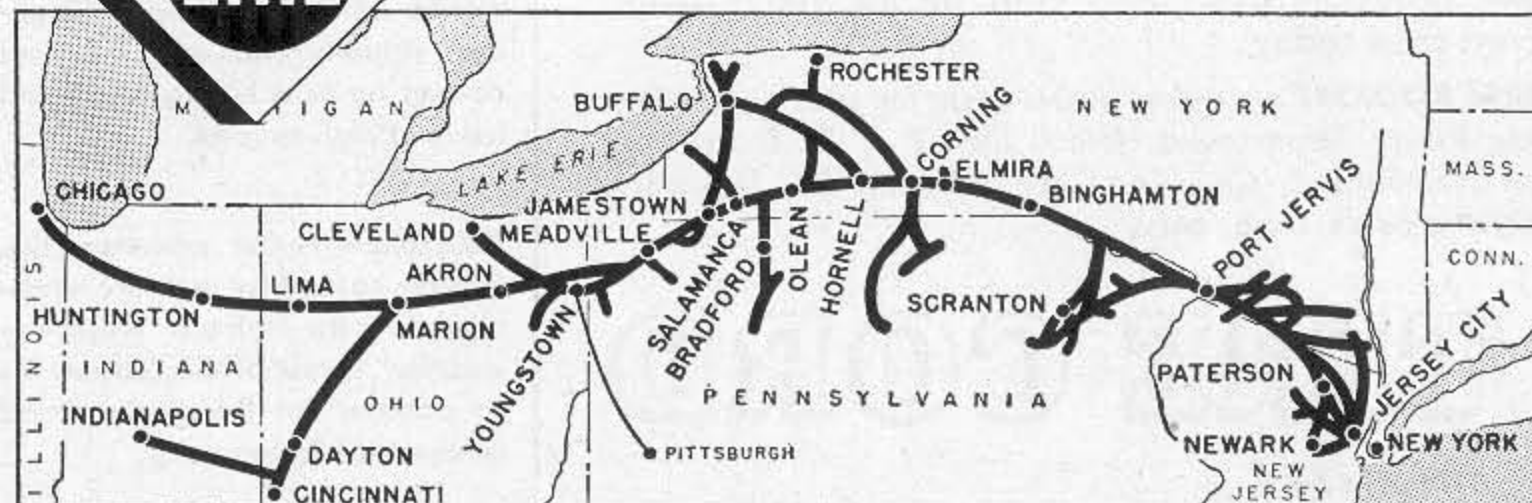

Many of these middle-sized towns in the Erie Area (see map below) meet the requirements of the Government's Dispersal Plan for industry. The Erie Railroad has plant sites available in all six states. One-third of America's people live, work and buy

in the Erie Area—the heart of the nation's largest single market. Industries are served by the dependable Erie Railroad, which connects with other railroads and with New York Harbor for export business.

Send in the coupon below. Your request will be handled in strict confidence—and without obligation.
