

## Land of Tomorrow's Opportunity

**A**BUNDANT raw materials, plentiful natural resources, skilled labor, and fast, dependable transportation combine to make "The Erie Area" the land of industrial opportunity.

In this "Industrial Heart of America" more industries, more wealth, and more people are concentrated than in any comparable section of America.

This is *your* biggest market—where you can have the natural advantages essential to realizing your plans for immediate and postwar industrial expansion.

For more than a century, the Erie Railroad has

served well this great industrial heart. And all our experience and intimate knowledge of this area is at your service in planning your industrial program.

Your copy of the new industrial map and any information you require will be furnished without obligation. Write to George F. Weston, Industrial Commissioner, Erie Railroad, Cleveland, Ohio.
