Where Nature's Postwar Plans are Ready

WHEN you are ready to go ahead with your plans for industrial expansion, you will find Nature has anticipated your needs in "The Erie Area".

Here in "The Industrial Heart of America" are endless supplies of coal, petroleum, iron ore, gas, lumber, sand, lime, agricultural products, and the basic materials for plastics.

With all of these natural resources and your biggest market for finished products right in this area, you can enjoy unsurpassed advantages in fulfilling your plans for immediate and future industrial progress.

At your confidential service without obligation

are the Engineering, Traffic, Research, and Industrial Development staffs of the Erie Railroad and their years of experience in serving thousands of industries in this area.

For your copy of the new illustrated map of "The Erie Area" and any special information, write to George F. Weston, Industrial Commissioner, Erie Railroad, Midland Building, Cleveland, Ohio.
