

LOOKING FOR A NEW PLANT LOCATION?

PLANTS *Grow* in the fertile Erie Area

THERE are good reasons why over 83,000 manufacturers, doing a yearly business of almost 27 billion dollars, have settled in the Erie Area. They have access to all the things needed for a successful, *profitable* business operation.

MARKETS. The six states of the Erie Area account for 40% of the nation's total retail sales.

MATERIALS. Coal, steel, iron, plastics and other basic raw materials are plentiful. And here also, is the center of the metal-working industry.

POWER. Nearly 40% of the country's total electric power—is available to industries locating in the Erie Area.

LABOR. Skilled workers are concentrated here. And the fact that nearly half of all the trade and industrial students in the United States are enrolled in this section, means a steady, plentiful source of new workers.

TRANSPORTATION. The Erie Railroad provides safe, dependable transportation for every type of product, plus linkage with other railroads and ships to world-wide markets.

WE CAN HELP YOU FIND YOUR NEW PLANT SITE
All the facts you need on available factory, warehouse and other business locations within the Erie Area—market data, tax rates, testing and research facilities, manpower, water supply—are yours for the asking. You can obtain this information—in confidence—by writing A. B. Johnson, Vice President, Erie Railroad, Room 514, Midland Building, Cleveland 15, Ohio.
