

• **LOOKING FOR A NEW PLANT LOCATION?**

**27 MILLION HORSES**  
*Travel These Lines*

**I**N THE ERIE AREA—New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois—is nearly 40% of the nation's total electric power generating capacity . . . 27 million horsepower that can be sent singing through far flung power lines to turn your wheels, process your materials and products, light your factories, stores, and warehouses.

It's plentiful, dependable, and low in cost.

But the Erie Area offers you *more* than electric power—

**MARKETS:** 34% of America's population, doing 40% of the nation's retail buying, live in these six states.

**LABOR:** Nowhere else in the country can be found

such a concentration of skilled and unskilled workers. During the war they produced 42% of America's war materials.

**MATERIALS:** Coal, oil and gas, iron and steel, plastics ingredients, and many other raw materials are available for industry. Here, too, are found hundreds of suppliers of parts and machine tools.

**TRANSPORTATION:** Connecting with other railroads and ships to every part of the world, the Erie

Railroad provides safe, dependable shipping for every type of product.

**LET US HELP YOU FIND YOUR NEW SITE:** Erie has the facts on plant, warehouse, and other business locations within the Erie Area; tax rates, population data, testing and research facilities, manpower, water supply, etc. You can have them in confidence by writing A. B. Johnson, Vice President, Erie Railroad, Room 514, Midland Building, Cleveland 15, Ohio.
