

Going 'round in circles...
 trying to find a new plant location?

WHY go round and round, wasting time and energy, looking for a particular factory site?

You can streamline your search, just as scores of manufacturers, large and small, have done.

Leave it to The Erie Railroad!

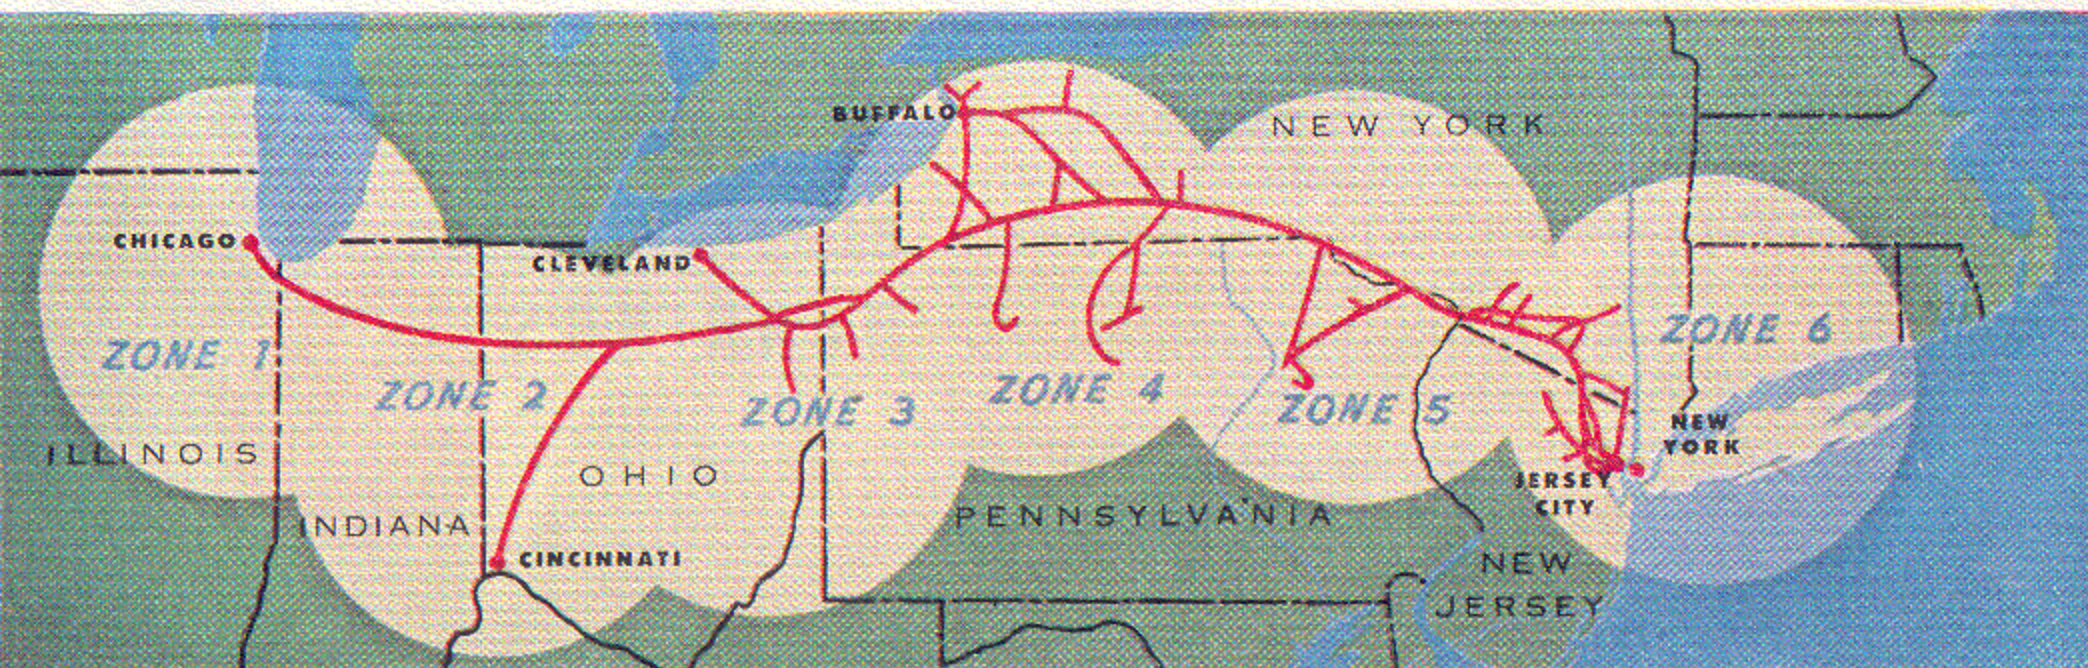

For the Erie Industrial Development Department is ready to furnish you, in complete confidence, all the essential facts on available industrial locations within the six prosperous zones of bustling activity comprising the Erie Area.

Here is The Heart of Industrial America . . . providing an unmatched combination of important markets, materials, manpower and facilities. Here you are assured of dependable Erie transportation for all your raw materials and finished products . . . convenient connections all along the Erie line provide excellent routing for shipments going north or south.

Let the Erie know what important factors are necessary to make your new plant a success . . . your letter will bring a quick response with information and data on local manpower, consumer markets, raw materials, water supplies, power, taxes and insurance rates. Write George F. Weston, Industrial Commissioner, Erie Railroad, Midland Building, Cleveland 15, Ohio.
